Key Projects

Product Experience – BigBasket

- Redesigned and implemented high-impact UI widgets—including bottom sheets, splash screens, rewards flows, and PIP floaters—using third-party tools to maximize application usability.
- Optimized merchant touchpoints like the "Brand of the Day" feature, driving business growth by significantly boosting brand engagement and sales conversions.

iBrites – Professional Corporate Website

- Conceptualized and delivered a fully responsive corporate web application, aligning layout architecture with client branding and complex business requirements.
- Optimized asset loading and UI components to ensure cross-browser compatibility and a seamless, high-performance user experience.

Web Platforms & UI Development – BigBasket

- Led the front-end UI development and responsive architecture for BigBasket's core web ecosystem, including the bbdaily platform, bbinstant platform, official corporate blog, and promotional emailer flatpages.
- Engineered a responsive CSR donation portal using HTML5, CSS3, and JavaScript, optimizing the interface and layout to drive a 20% increase in user engagement.

EV Charging Port Booking System

- Designed an intuitive booking interface for EV charging ports using Adobe XD, focusing on user-friendly navigation, streamlined booking flows, and enhanced app usability.
